

Task # 4:

Write a program to check the eligibility of the user whether he/she can vote or not.

User will enter his/her age in the text box and click on button.

If the user's age is 18 or above he/she will be eligible for vote.

Appropriate messages will be shown for the user according to condition.

Proper validation must be implemented.

Note : Use JavaScript to create the task. No other libraries should be included
